

In-Line Wrap

Automatic Label Applicator System

- Compatible with all ID Technology label applicators.
- Capable of running at speeds up to 3100 linear inches per minute (depending on label applicator selection).
- Heavy-duty construction designed for industrial applications.
- Stainless steel and anodized aluminum provide protection from corrosive environments.
- Solid construction ensures even product handling resulting in extremely accurate label placement.
- Fully adjustable I/O mounts permit the applicator head to be oriented to any attitude for side, top or bottom label placement.
- Handles a wide assortment of product and label sizes.

Standard wrap systems come complete with an 8' by 6" chain link conveyor, a single applicator head I/O mount, a 6" by 11" wrap station, a microprocessor controller hung from an articulator arm, guide rails, and a spacer wheel assembly. The conveyor height is fully adjustable between 32 and 39 inches and capable of handling products up to 6" wide. Each conveyor system includes heavy-duty construction, robust locking casters, vertical, horizontal and swivel adjustments for applicator head mounting and a heavy-duty 1/4 horse-power adjustable speed motor.
